Carlos Rucker

Android Developer

4433 Texas St
San Diego, CA 92116
(619) 972-4914
carlosvrucker@gmail.com

Software engineer utilizing the latest libraries and Android Studio.

PROJECTS

Trivial Knowledge App, *published*

A trivia game that saves your high score. Uses The Trivia Database RESTful API to supply questions and answers.

Listo App, *published*

A simple and clean to-do list app. Features checked list items which move to completed list.

Concert Tracker App

Find out when music bands are playing in your area. Uses the BandsInTown API. Libraries: Retrofit 2, Cardview, Glide.

Listen and Learn App, *published*

Streams music for concentration. A curated list of royalty free music. Features background play and music controls through notifications menu.

Smog Lambda Calculator, *published*

A useful tool for automotive smog technicians. Calculates lambda (air/fuel ratio) based on a vehicle's 5 tailpipe gas readings. Results are displayed numerically and graphically.
